*Touching a supposed Shoal in the Bay of Bengal.*

THE Marine Board, with reference to their Notification No. 1270, of the 27th ultimo, publish for general information, the following Report from Captain Warden, Commanding the Steam Vessel Queen, of the result of his examination of the place where the abovementioned Shoal is said to have existed.

By Order of the Marine Board,

C. B. GREENLAW,

Fort William, }  
The 9th March, 1843. }

Secretary.

To

C. B. GREENLAW, Esq.,

Secretary to the Marine Board.

SIR,—I beg leave to report to you for the information of the Board, that after coasting off Her M.'s Ship "Indymion," in 85° 30' East Long. and 16° 40' N. Latitude, I proceeded in a W. S. W. direction in search of the Shoal said to have been discovered by the Bark "Planet." I ran in this direction about 61 miles, when I hove too for the night with my head to the Southward and Eastward, being at this time about 10 miles S. of the spot where the Shoal was said to lay. At day light the next morning, I started again steering West for 21 miles, when I turned and stood back steering E. by N. with a good look out from the Mast Head, and the lead hove carefully every hour. At noon I found I was in Long. 84° 6' E. and Lat. 16° 40' N. having been set considerably to the Northward during the night. I stood again to the Sd. and Eastward for 22 miles, crossing over the spot where the Shoal was said to be, but seeing no appearance thereof, I recommenced my Traverse according to the Sketch sent me by the Board, steering E. by N. on one tack, and W. N. W. on the other, covering a space of 20 miles East and West of the spot where it was supposed to exist, until I had worked away to the Northward in the Lat. of 16° 57' N., when I gave up the search, not having seen the slightest appearance of any Shoal, or obtained sounding at 60 fathoms water. The

weather all the time remarkably clear, not a slightest appearance ever of a colored water could be seen from our Mast Head.

I have, &c.,

## NOTIFICATION

BY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA.

*Political Department; Agra, the 15th March, 1843.*

The Governor General has the highest satisfaction in making known to the army, the names of the several officers, non-commissioned officers and privates, recorded in the reports made to His Excellency Major General Sir Charles Napier, K. C. B., as having most distinguished themselves in the battle of Meeanee.

The Governor General directs, that the unserviceable guns, taken at Hyderabad, shall be sent to Bombay, and there cast into a Triumphal Column, whereon shall be inscribed in the English and two native languages, the names of Major General Sir Charles Napier, K. C. B., and of the several officers mentioned by His Excellency in his despatch, and likewise the names of the several officers, non-commissioned officers and privates, mentioned in the reports, that thus the names may be for ever recorded of those who, at Meeanee, obtained for themselves that glory in the field, which is the reward dearest to a true soldier.

The Governor General is further pleased to direct, that the drivers attached to the 2d company 2d battalion, 3d company 3d battalion of Bombay artillery, in the battle of Meeanee, shall be entitled to the pension of *sepoy*s.

The Governor General requests that the officers commanding corps in the army of Scinde, will bring before committees the cases of the several officers, non-commissioned officers and privates, who most distinguished themselves in the battle of Meeanee, in order, that the Government may award the Order of Merit to all who may be entitled to it by their conduct.

By order of the Right Hon'ble the Governor General of India,

J. THOMASON,

*Offg. Secy. to the Govt of India,  
with the Governor General.*

From Major General Sir C. J. NAPIER, K. C. B.,

To the Right Hon'ble LORD ELLENBOROUGH,

*Governor General of India,*

&c. &c. &c.

*Hyderabad, 2d March, 1843.*

MY LORD,

I beg leave to send to your Lordship reports made by my order, that while the memory is fresh, distinguished deeds may be put on record. The great results of this battle have made me anxious that those who were so conspicuous in the hour of trial should be known to your Lordship. Their devotion to their duty was very honorable to them.

In the case of the brave drivers of the two batteries, I am sure your Lordship will do them justice, and I beg especially to recommend them to your Lordship's protection.

I have, &c.

(Signed) C. J. NAPIER, *Maj. Genl.*

From Captain G. HUTT,

*Comdg. Field Battery,*

To the Adjutant of Artillery,

*In Scinde.*

*Camp, near Hyderabad, 23d February, 1843.*

SIR,

With reference to Division After Orders of yesterday, I beg permission to bring to the notice of the Major General, the general steadiness and good conduct of the drivers of the

**Drivers.** battery under my command, throughout the action of the 17th, particularly of three men, who brought up the howitzer that was first in action on the right of the line, (when formed on the bank of the nullah.) under a very heavy and destructive fire, with a degree of coolness and steadiness that could not be surpassed, though two of their horses were dangerously wounded.

I would not presume to bring these men to notice were they enlisted, or treated as fighting men, but as they are still considered as mere followers, men whose families receive no pension in the event of their death, or themselves, if disabled by wounds, I beg to submit the case to the Major General, as a strong argument in favor of those, on whose courage and conduct the very existence of the battery must often depend.

I have, &c.  
(Signed) **GEO. HUTT, Captain,**  
*Comdg. Field Battery.*

From Major P. F. STONY,  
*Comdg. 9th Light Cavalry,*  
To Lieutenant PERRY,

*Camp, Hyderabad, 26th February, 1843.*

SIR,

In forwarding the accompanying Roll, for the information of the Major General, I have the honor to request you will inform him, that I have had the greatest difficulty in selecting these men, where all behaved so gallantly, and nearly equally well.

I have, &c.  
(Signed) **P. F. STONY, Major,**

From Major J. H. POOLE,  
*Commanding 22d Regiment,*

To the Assistant Adjutant General,  
*Scinde Field Force.*

*Camp Hyderabad, 24th February, 1843.*

Sir,

In reference to No. 2, After Division Orders of the 22d instant, I called upon the captains and officers commanding companies, to furnish me with the names and acts of individuals of the regiment under my command, who had especially distinguished themselves in the action of the 17th instant. The officers generally assert that they feel difficulty in making selections, where the conduct of every man of their companies was so satisfactory. In so general a field of action and perfect exertion, I equally feel at a loss where to draw a distinction; but it may be proper to mention the names of private James O'Neill, of the light company, who took a Standard whilst we were actively engaged with the enemy, and drummer Martin Delaney who shot, bayoneted and captured the arms of Meer Whullee Mahomed Khan, who was mounted, and directing the enemy in the hottest part of the engagement, when all the regiment behaved with enduring coolness and intrepidity. I hope the particular circumstances of these two cases will exonerate me from the imputation of doing injustice to all the brave soldiers of the regiment, by particularizing them.

Sir,

Agreeably to Division Orders of the 22d instant, I beg to bring to the special notice of Major General Sir C. Napier, K. C. B., the names of the following officers and men of the 1st Grenadiers, who distinguished themselves by zeal and gallantry in the action of the 17th February.

Lieutenant Johnstone, who cut down a Beloochee, and saved the life of a sepoy, who had bayoneted this Beloochee, but was overpowered in the life struggle.

Subadar Major Cooshall Sing, and Subadar Esseree Pursaud, likewise privates Sunker Misser and Kadaree Powar, who were conspicuous throughout the day for their zeal and gallantry.

Sir,

With reference to No. 3, of the Division Orders, dated the 22d instant, I have the honor to transmit, for the purpose of being laid before the Major General, a nominal Roll of non-commissioned officers, naicks and privates, in the 12th Regiment N. I., who have been reported to me by the officers in command, and in charge of the companies to which they belong, as having particularly distinguished themselves in the action of the 17th instant.

I take this opportunity of recording the gallant conduct of the late Captain and Brevet Major Jackson, who fell at the head of the Grenadier company, in a personal conflict with several of the enemy. The other officers, Lieutenant and Brevet Captain Meade and Lieutenant Wood, who were killed, were also most conspicuous when they fell, in cheering on their men at one of the most critical periods of the action. To the other European officers I am also much indebted for their gallant conduct and example throughout the day; but to Lieutenant and Brevet Captain Brown, the only mounted officer with me in the battle, in a particular degree I beg to place on record, the deep gratitude I must ever feel for the assistance he afforded me, as well as my admiration at the gallantry he displayed in cheering the men throughout the conflict at every part of the line, where the resistance was most hot and determined.

I have, &c.

Sir,

Agreeably to Division Orders of the 22d instant, I beg to bring to the especial notice of Major General Sir C. J. Napier, K. C. B., the following officers of the 25th regiment N. I., who particularly distinguished themselves, by zeal and gallantry, in the action of the 17th of February, 1843.

The whole of the sepoye behaved so well, that I consider it would be invidious to make any distinction.

Lieutenant Marston, grenadier company, who cut down two of the enemy single handed, in front of the line.

Subadar Major Nund Ram, who, though wounded, remained with his company throughout the action.

Subadar Russall Sing, grenadier company, who shot three men, and cut down one, and shewed great zeal in encouraging and leading on his men.

Jemadar Bappoo Sawunt, light company, who cut down one man.

Sir,

With reference to Division Orders of the 22d instant, I have the honor to request that you will bring to the notice of Major General Sir Charles Napier, K. C. B., commanding in Scinde and Beloochistan, that throughout the battle fought on the 17th instant, I received the most essential service from my Acting Adjutant Lieutenant Russell, whose steady, cool and daring conduct

on the occasion, mainly contributed to the good behaviour of the corps I have the honor to command, especially while it was exposed alone for nearly two hours to a heavy fire of artillery, in a most trying position for an irregular sepoy corps, which, until a few months before that day, had, since it was raised, been always dispersed in small detachments, and the men of which had, with few exceptions, never been engaged in any but skirmishing fights. I am also greatly indebted to this officer for the promptness with which he assisted me in the very difficult task of re-forming, after charging through the enemy's camp, when the men were excited to the highest pitch, and when their services were required to repel an expected attack on the rear guard.

I also request, that you will have the kindness to bring to the notice of the Major General, the excellent conduct of Russuldar Surferay Khan, Jemadar Alladah Khan Nawab, and Duffadar Mhobut Khan. The good conduct of these three native officers was most conspicuous throughout the day, and particularly on one occasion, when the regiment was moving over ground rendered nearly impassable by water-courses, hedges, and deep cuts filled with thorns and lined by matchlock men; in advancing at the gallop over these obstacles so many falls took place, that more than fifty of our horses were lying on the ground at once; this occurred under a very heavy fire from the village and nullahs on the right of the enemy's line, and on this occasion the native officers above mentioned, re-formed their men and restored order in a style which was deserving of my highest admiration. I do not mention Lieutenant FitzGerald, my second in command, as I have already brought that officer's services to the notice of the General.

I have, &c.

#### No. 1577. NOTICE.

*Touching a supposed Shoal in the Bay of Bengal.*

**T**HE Marine Board, with reference to their  
Notification No. 1270, of the 27th ultimo,  
publish for general information, the following  
Report from Captain Warden, Commanding the  
Steam Vessel Queen, of the result of his examina-  
tion of the place where the abovementioned Shoal  
is said to have existed.

By Order of the Marine Board,

C. B. GREENLAW,  
Fort William, } Secretary.  
The 9th March, 1843. }

To

C. B. GREENLAW, Esq.,  
Secretary to the Marine Board.

Sir,—I beg leave to report to you for the in-  
formation of the Board, that after coasting off Her  
M.'s Ship "Indymion," in 85° 30' East Long. and  
16° 40' N. Latitude, I proceeded in a W. S. Wes-  
terly direction in search of the Shoal said to have  
been discovered by the Bark "Planet," I ran  
this direction about 61 miles, when I hove too for

the night with my head to the Southward and  
Eastward, being at this time about 10 miles S. of  
the spot where the Shoal was said to lay. At day  
light the next morning, I started again steering  
West for 21 miles, when I turned and stood back  
steering E. by N. with a good look out from the  
Mast Head, and the lead hove carefully every hour.  
At noon I found I was in Long. 84° 6' E. and Lat.  
16° 40' N. having been set considerably to the  
Northward during the night. I stood again to the  
Sd. and Eastward for 22 miles, crossing over the  
spot where the Shoal was said to be, but seeing  
no appearance thereof, I recommenced my Tra-  
verse according to the Sketch sent me by the Board,  
steering E. by N. on one tack, and W. N. W. on  
the other, covering a space of 20 miles East and  
West of the spot where it was supposed to exist,  
until I had worked away to the Northward in the  
Lat. of 16° 57' N, when I gave up the search, not  
having seen the slightest appearance of any Shoal,  
or obtained sounding at 60 fathoms water. The  
weather all the time remarkably clear, yet not the  
slightest appearance ever of discolored water could  
be seen from our Mast Heads.

I have, &c,

## NOTIFICATION

BY THE RIGHT HONORABLE THE GOVERNOR  
GENERAL OF INDIA.

Palace of Agra, the 20th March, 1843.

The Governor General directs the publication of the following extract from a letter, dated the 5th instant, addressed to His Lordship by His Excellency the Governor of Scinde:

"I have received the enclosed account of one of the most gallant actions I ever read of. The damage to the boat is estimated at 200 rupees; but I imagine, your Lordship will order the boatmen more than a mere remuneration."

The Governor General directs, that one hundred rupees, in addition to the estimated amount of the damage done to the boat, be paid to the Jindel.

The Governor General will be gratified if His Excellency the Governor in Council of Bombay should see fit to grant one step of rank to the jemadar, Mookunjee Naik, of the 15th regiment of Bombay native infantry, who commanded on the occasion of this gallant defence made for three days and nights, by a small party of sepoys, against large numbers of Beloochees, and likewise to the havildar, the two naiks, and the six sepoys named by the jemadar, as having particularly distinguished themselves.

The Governor General requests, that His Excellency the Governor of Scinde will cause the jemadar, and the several non-commissioned officers and sepoys, who composed the detachment engaged, to be informed, that their very brave conduct has been brought to his notice, and receives his especial thanks.

By order of the Right Hon'ble the Governor General of India,

J. THOMASON,  
Offg. Secy. to the Govt. of India,  
with the Governor General.

*Evidence of Jemadar Mookunjee Naik, 15th Regiment N. I., relative to the attack on his detachment, strength as below,\* by a party of Beloochees, estimated at from 800 to 1,000 men, on the 19th, 20th and 21st of Feb'y., 1843*

On the morning of the 19th February 1843, about 11 A. M., a party of Beloochees, consisting of about 25 horse and 50 foot, fell suddenly upon my party, when we were quietly cooking our dinners, without the slightest suspicion of any attack, or of any enemy being near us. The enemy rushed into the lines with loud shout of "Deen," "Deen," "Alli," "Alli," and at once killed Mr. Barnes, the sub-conductor, and his wife, who were in their house close to the lines. On hearing the shouts and seeing the enemy, I called out to my men as there was no possibility of "falling them in" to fire away from their houses, and that now was the time to acquit themselves like men.

The sepoys immediately obeyed my orders and killed nine of the enemy at the first discharge; two of whom were chiefs, and one of whom I shot myself. The enemy upon this retreated from both sides of the huts, having killed two of my sepoys and wounded five others. As soon as they had retreated to a short distance, I fell in the detachment and looked about for some defensible position, but seeing none, I ordered my men to take up the wounded, and with our arms and ammunition only, we marched to a large boat which was moored to the bank, about thirty paces from our huts, of which we took possession with the consent of the Jindel "Buskkoo," who was on board, and rendered us every assistance. Immediately we were all on board, I cut the cable and pushed off into deep water under a very heavy fire of matchlocks. The enemy by this time amounted to at least 800, and their number was every moment increasing. In getting on board the boat I had three more of my men wounded, and but for the high sides of the boat, which sheltered us from the storm of bullets we could not possibly have escaped. After leaving the bank, we floated up the river about half a coss as the tide was rising, and anchored the boat in deep water, the Beloochees keeping a heavy fire upon us from both banks. On seeing us get on board the boat, the Beloochees seized another large Cotra which had just arrived from Cutch, and having embarked

\* 1 Jemadar; 1 Havildar; 2 Naiks; 20 Sepoys.

about 200 men, pushed off in pursuit of us, but the Cotra after proceeding about 100 yards, grounded; the enemy then procured a smaller boat similar to the one we were in, and pursued us in that; on seeing them coming, we weighed anchor and floated up in the Taita direction, occasionally returning the enemy's fire which was very heavy, both from the boat and the banks. When the tide turned we cast anchor, upon which the Beeluchies put out men to tow their boat up to us, upon which we fired upon the men who were towing, and thus prevented their boat approaching nearer to ours. The enemy then got out six jingals from the Cotra and tried to sink us with them, but these had no effect, as they did not know how to use them. In this manner advancing, when the tide rose and anchoring in deep water when it receded, we continued to fight incessantly for three days and nights. On the morning of the 22d, the enemy fled, and a banyan came on board our boat and informed us, that the English had taken possession of Hyderabad, and that the whole country had become ours. We thereupon returned to Vikkur, and on the 23d we proceeded to Annes Bunder, where we found the boat sent from Kurrachee by Lieutenant Preedy on the 17th, and which had arrived on the morning the fight commenced, and had been seized by the enemy. The tinsel of the river boat rendered us the greatest assistance, gave us food and behaved most nobly. The whole of the detachment behaved most bravely, but the following six men particularly distinguished themselves:

Lixman Sing,	5th Company.
Man Sing,	6th Do.
Lalla Ayn,	7th Do.
Narain Urgee,	7th Do.
Ktojee Naggerie,	7th Do.
Ramjee Salwee,	7th Do.

The jemadar reports that he had for two or three days previous to the attack, observed bodies of men coming down the river and landing at Vikkur, and that he had enquired who they were, and was informed that they had come down by order of the Ameers, to collect the grain which is collected annually on account of Government; that he had doubted the truth of this, and had brought the assembly of these men to the notice of Mr. Barnes, but he had replied, that there was no danger to be apprehended. On the morning of the attack, the jemadar had again drawn Mr. Barnes' attention to the people collecting around the village; but the conductor had again assured him, that he need not to be under any apprehension. The jemadar states, that the river boat in which he and his party fought was much injured by the enemy: the tinsel should, therefore, be reimbursed for the loss sustained.

The following articles were broken, or thrown overboard by the sepoys, to make a clear deck fore and aft, in which to fight, viz.:

	Rupies.

*Touching a supposed Shoal in the Bay of Bengal.*

THE Marine Board, with reference to their Notification No. 1270, of the 27th ultimo, publish for general information, the following Report from Captain Warden, Commanding the Steam Vessel Queen, of the result of his examination of the place where the abovementioned Shoal is said to have existed.

By Order of the Marine Board,

C. B. GREENLAW,

Fort William, } Secretary.  
The 9th March, 1843.

To

C. B. GREENLAW, Esq.,

Secretary to the Marine Board.

Sir,—I beg leave to report to you for the information of the Board, that after coasting off Her M.'s Ship "Indymion," in 85° 30' East Long. and 16° 40' N. Latitude, I proceeded in a W. S. Westerly direction in search of the Shoal said to have been discovered by the Bark "Planet," I ran in this direction about 61 miles, when I bore too for

the night with my head to the Southward and Eastward, being at this time about 10 miles S. of the spot where the Shoal was said to lay. At day light the next morning, I started again steering West for 21 miles, when I turned and stood back steering E. by N. with a good look out from the Mast Head, and the lead hove carefully every hour. At noon I found I was in Long. 84° 6' E. and Lat. 16° 40' N. having been set considerably to the Northward during the night. I stood again to the Sd. and Eastward for 22 miles, crossing over the spot where the Shoal was said to be, but seeing no appearance thereof, I recommenced my Traverse according to the Sketch sent me by the Board, steering E. by N. on one tack, and W. N. W. on the other, covering a space of 20 miles East and West of the spot where it was supposed to exist, until I had worked away to the Northward in the Lat. of 16° 57' N. when I gave up the search, not having seen the slightest appearance of any Shoal, or obtained sounding at 60 fathoms water. The weather all the time remarkably clear, yet not the slightest appearance ever of discolored water could be seen from our Mast Heads.

I have, &c.,

And whereas the Appeal from convictions before Magistrates acting in their Magisterial capacities, and from the like convictions before Justices of the Peace are subject to different rules. And whereas in all cases of convictions before Justices of the Peace in the Mofussil and before Magistrates exercising jurisdiction under the provisions of Statute 53 Geo. III. I. It is hereby enacted, that an Appeal shall lie from all sentences passed by any Justice of the Peace acting without the local limits of any of Her Majesty's Supreme Courts upon convictions had before him for any offence, and from all sentences passed by any Magistrate upon convictions had before him exercising such jurisdiction as aforesaid to the same authority and subject to the same rules as are provided by the Regulations and Acts of the Government in the case of sentences passed by Magistrates in the exercise of their ordinary jurisdiction. And cases so made the subject of Appeal shall not be afterwards liable to revision by means of a Writ of Certiorari.

II. And it is hereby provided that nothing in this Act contained shall be held to take away the power of quashing any conviction by means of a Writ of Certiorari, in any other case than where there has been such Appeal as aforesaid.

# ECCLESIASTICAL.

Viewing the importance to the public of the regularity and completeness of the Official Returns of the Clergy, it is with the approbation of Government in future directed by the Archdeacon—

That any Chaplain or Minister applying for any permanent leave of absence from his station, or to retire on furlough, shall forward with his application a Declaration, that he has duly made his Official Returns to the Registrar, or is prepared to do so, to the date up to which he requests to be permitted so to be absent or to retire.

That the same Rule is to apply to those removed from one station to another, and that every Chaplain so removed shall before quitting his station not only forward his Returns up to the date of leaving, but forward a Declaration to the authorities that he has done so.

That in case of the death of a Chaplain at his station, especially so if at a remote distance, a copy of the Returns from the date of his last Quarterly Returns to the period of his demise be made out by the Clerk, or other local public authority in whose official possession the original public Registers may happen for the time to be lodged or come, and be immediately forwarded by such local officer to the Registrar, the same being also duly examined and verified under the signature of the Chief Lay Public Authority of the station as being the best mode at present of supplying such, so as to complete the general Quarterly Returns, transmitted home by the orders of the Court of Directors.

By direction of the Venerable Thomas Dealtry, Archdeacon of Calcutta and Commissary of the Lord Bishop, dated this 31st day of March 1843,

W. R. ABBOTT,  
Registrar.

# OVERLAND LETTERS AND POSTAGE.

IT is hereby notified for general information—

*First.*—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked via "Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

*Second.*—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c. for places lying between Bombay and Marseilles, will be despatched in separate Packets.

*Third.*—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 8d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

*Touching a supposed Shoal in the Bay of Bengal.*

**T**HE Marine Board, with reference to their Notification No. 1270, of the 27th ultimo, publish for general information, the following Report from Captain Warden, Commanding the Steam Vessel Queen, of the result of his examination of the place where the abovementioned Shoal is said to have existed.

By Order of the Marine Board,

C. B. GREENLAW,

FORT WILLIAM, } Secretary.  
The 9th March, 1843. }

To

C. B. GREENLAW, Esq.,

Secretary to the Marine Board.

SIR,—I beg leave to report to you for the information of the Board, that after coasting off Her M.'s Ship "Indymion," in 85° 30' East Long. and 16° 40' N. Latitude, I proceeded in a W. S. Westerly direction in search of the Shoal said to have been discovered by the Bark "Planet." I ran in this direction about 61 miles, when I hove too for the night with my head to the Southward and Eastward, being at this time about 10 miles S. of the spot where the Shoal was said to lay. At day light the next morning, I started again steering West for 21 miles, when I turned and stood back steering E. by N. with a good look out from the Mast Head, and the lead hove carefully every hour. At noon I found I was in Long. 84° 6' E. and Lat. 16° 40' N. having been set considerably to the Northward during the night. I stood again to the Sd. and Eastward for 22 miles, crossing over the spot where the Shoal was said to be, but seeing no appearance thereof, I recommenced my Traverse according to the Sketch sent me by the Board, steering E. by N. on one tack, and W. N. W. on the other, covering a space of 20 miles East and West of the spot where it was supposed to exist, until I had worked away to the Northward in the Lat. of 18° 57' N., when I gave up the search, not having seen the slightest appearance of any Shoal, or obtained sounding at 60 fathoms water. The weather all the time remarkably clear, yet not the

slightest appearance ever of discolored water could be seen from our Mast Heads.

I have, &c.,

(Signed) W. WARDEN,

Comd'g. E. I. C. S. Frigate "Queen."

## NOTICE.

## DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of  $4^{\circ}$  to  $12^{\circ}$  of North Latitude, and  $106^{\circ}$  and  $119^{\circ}$  of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmieu" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information:

List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.

English Translation of Spanish Names.		Danger.	Lat. No.		Long. E. from Greenwich		REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water,	10	58'	10"	110° 34'	Those who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Ardassor's, Andrada, Middleburgh's and Gosard's Reefs, &c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was at first intended to add to this list brief remarks upon each of them. But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what data they had been introduced on the Spanish Chart together with those which are evidently from their dates, new discoveries, as the Thomas and Brown's dangers of 1839: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the covering a Chart with Rocks and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them.

21	Andrada Rock (doubtful) ...	Rock, .....	9° 47' 30"	111° 10' 0"	In a night, and this even over large spaces Mr. Darwin believes the China Sea to be an area of depression, viz., a space in which at some former period a great sinking of the crust of the earth took place, while the Philippines, and perhaps Borneo, were raised from the Ocean. As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be yet elevated or sunk from time to time by this cause. The Island of Cheduba, in the Bay of Bengal, has had a large piece added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants See Captain Halsted's Report, in Journal of the Asiatic Society, Vol. X p. 431. It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be entangled in this dangerous quarter of the China Sea, or to explain why we have preferred marking ago many old dangers now expunged from our modern Charts, since they have once disappeared, while we do not know, there is always some possibility of their re-appearance—which we certainly do know

## NOTICE.

## DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of 4° to 12° of North Latitude, and 106° and 119° of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmien" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information:

*List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.*

No.	English Translation of Spanish Names.	Danger.	Lat. No.	Long E. from Greenwich	REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water,	10° 58' 40"	110° 34' 10"	These who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Ardasser's, Andrada, Middleburgh's and Gossard's Rocks, &c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was at first intended to add to this list brief remarks upon each of them. But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what date they had been introduced on the Spanish Chart together with those which are evidently from their date, new discoveries, as the Thomas and Brown's dangers of 1839: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the engraving a Chart with itself and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them. And I may not perhaps be out of place here to add, for it throws much light on this question, that recent geological researches (we allude especially to Mr. Charles Darwin's beautiful work on Coral Reefs) render it certain that Coral reefs and low Islands are not only the tops of mountains rising from the depths of the ocean, upon which the Polypi then built, but that they are subject to alternate sinkings and risings within shorter or longer periods of time, so that Islands, Banks or Shoals may appear or disappear or be changed.

21	Andrade Rock (doubtful) ...	Rock, .....	8° 47' 30"	111° 10' 0"	In a night, and this even over large spaces Mr. Darwin believes the China Sea to have been a depression, viz. a space in which in some former period a great sinking of the crust of the earth took place, while the Philippines, and perhaps Borneo, were raised from the Ocean. As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be yet elevated or sunk from time to time by this cause. The Island of Cheduba, in the Bay of Bengal, has had a large piece added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants. See Captain Haklsted's Report, in Journal of the Asiatic Society, Vol X p. 434. It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be entangled in this dangerous quarter of the China Sea, or to explain why we have preferred marking again many old dangers now expunged from our modern Charts, since if they have once disappeared, which we do not know, there is always some possibility of their re-appearance—which we certainly do know.

## FORT WILLIAM,

GENERAL DEPARTMENT, THE 29TH MARCH, 1843.

The Hon'ble the Deputy Governor of Bengal is pleased to direct, that the following copy of a Treaty of Commerce and Navigation, concluded between Her Majesty and the Emperor of Russia, on the 11th January 1843, received from the Honorable the Court of Directors, be published for general information:

**TREATY OF COMMERCE AND NAVIGATION BETWEEN HER MAJESTY AND THE  
EMPEROR OF ALL THE RUSSIAS,**

SIGNED AT ST. PETERSBURGH, JANUARY 11, 1843.

[*Ratifications exchanged at London, January 31, 1843.*]

In the name of the Most Holy and Indivisible Trinity.

Au nom de la Très Sainte et Indivisible Trinité.

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the Emperor of all the Russias, being desirous of extending, increasing, and consolidating the commercial relations between their respective dominions and possessions, and of thereby procuring all possible facilities and encouragements for those of their subjects who partake in those relations; and being persuaded that nothing can more contribute to the accomplishment of their mutual wishes in this respect, than the reciprocal abolition of the differential and countervailing duties which are at present exacted and levied on the vessels or produce of either of the two States in the ports of the other, have named as their Plenipotentiaries for the conclusion of a Treaty to this effect, that is to say:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Right Honourable Charles Baron Stuart de Rothsay in the Isle of Bute, Peer of Parliament, Member of the Privy Council, Knight Grand Cross of the Most Honourable Order of the Bath, and of the ancient Order of the Tower and Sword of Portugal, Ambassador Extraordinary and Plenipotentiary to His Majesty the Emperor of all the Russias;

And His Majesty the Emperor of all the Russias, the Sieur Charles Robert Count Nesselrode, His Privy Councillor, Vice-Chancellor, Member of the Council of the Empire, Knight of the Orders of Russia, and of several others; and the Sieur George Count Cancrini, General of Infantry, Minister of Finance, Member of the Council of the Empire, Knight of the Orders of Russia, and of several others;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles:

## ARTICLE I.

There shall be reciprocal freedom of Navigation and Commerce for the ships and subjects of the two High Contracting Powers, in all parts of their respective dominions where Navigation and Commerce are at present allowed, or may hereafter be allowed, to the ships and subjects of any other nation.

## ARTICLE II.

From the date of the exchange of the ratifications of the present Treaty, British vessels arriving in, or departing from, the ports of His Majesty the Emperor of all the Russias, and Russian

Sa Majesté la Reine du Royaume Uni de la Grande Bretagne et d'Irlande, et Sa Majesté l'Empereur de toutes les Russies, animés du désir d'étendre, d'accroître, et de consolider les relations commerciales entre leurs Etats et possessions respectifs, et de procurer par là toutes les facilités et tous les encouragements possibles à ceux de leurs sujets qui ont part à ces relations; persuadés que rien ne saurait contribuer davantage à l'accomplissement de leurs souhaits mutuels à cet égard, que l'abolition réciproque des droits différentiels et retorsifs qui actuellement sont exigés et prélevés sur les vaisseaux ou les produits de l'un des deux Etats dans les ports de l'autre, ont nommé leurs Plénipotentiaires pour conclure un Traité à cet effet, savoir:

Sa Majesté la Reine du Royaume Uni de la Grande Bretagne et d'Irlande, le Très Honorable Charles Baron Stuart de Rothsay dans l'île de Bute, Pair du Parlement, Membre du Conseil Privé, Chevalier Grand Croix du Très Honorable Ordre du Bain, et de l'antique Ordre de la Tour et de l'Épée du Portugal, Ambassadeur Extraordinaire et Plénipotentiaire près Sa Majesté l'Empereur de toutes les Russies;

Et Sa Majesté l'Empereur de toutes les Russies, le Sieur Charles Robert Comte de Nesselrode, Son Conseiller Privé actuel, Vice-Chancelier, Membre du Conseil de l'Empire, Chevalier des Ordres de Russie, et de plusieurs autres; et le Sieur Georges Comte de Cancrini, Général d'Infanterie, Ministre des Finances, Membre du Conseil de l'Empire, Chevalier des Ordres de Russie, et de plusieurs autres;

Lesquels, après s'être communiqué leurs pleins pouvoirs respectifs, trouvés en bonne et due forme, ont arrêté et conclu les Articles suivants:

## ARTICLE I.

Il y aura réciproquement liberté de Navigation et de Commerce pour les navires et sujets des deux Hautes Puissances Contractantes dans toutes les parties de leurs Etats respectifs, où la Navigation et le Commerce sont permis à présent, ou seront permis à l'avenir, aux sujets et navires de quelque autre nation.

## ARTICLE II.

A dater de l'échange des ratifications du présent Traité, les navires Anglais qui entreront dans les ports de Sa Majesté l'Empereur de toutes les Russies, ou qui en sortiront, et les bâtimens

vessels arriving in, or departing from, the ports of the United Kingdom of Great Britain and Ireland, and of all the possessions of Her Britannick Majesty, shall be subject to no other or higher duties or charges, of whatsoever nature they may be, than those which are now, or shall hereafter be imposed on national vessels, on their entering into, or departing from, such ports.

#### ARTICLE III.

In consideration that British ships arriving directly from other countries than those belonging to the High Contracting Parties, are admitted with their cargoes into the ports of the Russian Empire, without paying any other duties whatsoever than those payable by Russian vessels; and in consideration of the advantages which, in this respect, the present Treaty specifically grants to British Commerce in the Grand Duchy of Finland; it is agreed that from the date of the exchange of the ratifications of the present Treaty, Russian vessels arriving from the mouth of the Vistula, the Niemen, or any other river which forms the outlet of a navigable stream having its source in the dominions of His Majesty the Emperor of all the Russias, or passing through the said dominions, shall be admitted, with their cargoes, into the ports of the United Kingdom of Great Britain and Ireland, and of all the possessions of Her Britannick Majesty, exactly in the same manner as if those vessels arrived directly from Russian or Finnish ports, with all the privileges and immunities agreed upon by the present Treaty of Navigation and Commerce. In like manner, Russian vessels proceeding from any port of Great Britain, or of the British possessions, for the mouth of any of the above-mentioned rivers, shall be treated as if they were returning to a port of the Empire of Russia, or of the Grand Duchy of Finland. It is, however, understood, that these privileges shall apply to Russian vessels and their cargoes, with respect to places situated at the mouths of the above-mentioned rivers, only so long as British vessels and their cargoes shall be treated at those places, on their arrival and departure, on the same footing with Russian vessels.

#### ARTICLE IV.

All productions of the soil, industry, and art of the dominions and possessions of His Majesty the Emperor of all the Russias, including the said productions which may be exported by the rivers or streams mentioned in the preceding Article, and which may be imported into the ports of the United Kingdom and the possessions of Her Britannick Majesty; and also all the productions of the soil, industry, and art of the United Kingdom and possessions of Her Britannick Majesty, which may be imported into the ports of His Majesty the Emperor of all the Russias, shall enjoy reciprocally, in all respects, the same privileges and immunities, and may be imported and exported exactly in the same manner, in vessels of the one as in vessels of the other High Contracting Party.

#### ARTICLE V.

All articles which are not the productions of the soil, industry, and art of the respective States or of their possessions, and which may legally

Russes qui entreront dans les ports du Royaume Uni de la Grande Bretagne et d'Irlande, et dans ceux de toutes les possessions de Sa Majesté Britannique, ou qui en sortiront, ne seront sujets à aucuns droits ou charges, de quelque nature qu'ils soient, autres ni plus élevés que ceux qui sont actuellement, ou pourront par la suite être imposés aux navires indigènes, à leur entrée dans ces ports, ou à leur sortie.

#### ARTICLE III.

En considération de ce que les vaisseaux Anglais arrivant directement d'autres pays que ceux appartenant aux Hautes Parties Contractantes, sont admis avec leurs cargaisons dans les ports de l'Empire de Russie, sans payer d'autres droits quelconques que ceux que payent les vaisseaux Russes; et en considération des avantages que, sous ce rapport, le présent Traité accorde notamment au Commerce Britannique dans le Grand Duché de Finlande; il est convenu qu'à dater de l'échange des ratifications du présent Traité, les bâtimens Russes venant de l'embouchure de la Vistule, du Niemen, ou de tout autre fleuve, dans lequel se jette une rivière navigable prenant sa source dans les Etats de Sa Majesté l'Empereur de toutes les Russies, ou traversant les dits Etats, seront admis avec leurs cargaisons dans les ports du Royaume Uni de la Grande Bretagne et d'Irlande, et de toutes les possessions de Sa Majesté Britannique, exactement de la même manière que ces vaisseaux venaient directement de ports Russes ou Finlandais, avec tous les privilèges et immunités convenus par le présent Traité de Navigation et de Commerce. De la même manière, des bâtimens Russes expédiés d'un port de la Grande Bretagne ou des possessions Britanniques pour l'embouchure des fleuves susmentionnés, seront traités comme s'ils retournaient vers un port de l'Empire de Russie, ou du Grand Duché de Finlande. Il est entendu toutefois, que ces privilèges ne s'appliqueront aux vaisseaux Russes et à leurs cargaisons, par rapport aux places situées à l'embouchure des fleuves susmentionnés, qu'autant longtemps que les vaisseaux Anglais et leurs cargaisons y seront traités, à leur arrivée et à leur départ, sur le même pied que les vaisseaux Russes.

#### ARTICLE IV.

Toutes les productions du sol, de l'industrie, et de l'art des Etats et des possessions de Sa Majesté l'Empereur de toutes les Russies, y compris les dites productions dont l'exportation pourra avoir lieu par les fleuves ou rivières mentionnés à l'Article précédent, et qui peuvent être importées dans les ports du Royaume Uni et les possessions de Sa Majesté Britannique; de même que toutes les productions du sol, de l'industrie, et de l'art du Royaume Uni et des possessions de Sa Majesté Britannique, qui peuvent être importées dans les ports de Sa Majesté l'Empereur de toutes les Russies, jouiront réciproquement, à tous égards, des mêmes privilèges et immunités, et pourront être importées et exportées exactement de la même manière, sur les navires de l'une comme sur les navires de l'autre des Hautes Parties Contractantes.

#### ARTICLE V.

Tous les objets qui ne sont pas des productions du sol, de l'industrie, et de l'art des Etats respectifs ou de leurs possessions, qui peuvent

imported from the ports of His Majesty the Emperor of all the Russias, as likewise from those of the rivers and streams mentioned in the Third Article, into the ports of the United Kingdom of Great Britain and Ireland, and of all the possessions of Her Britannick Majesty, in Russian vessels, shall be subject to the same duties only as would be payable upon the same articles, if they were imported in British vessels.

In like manner, all articles which are not the productions of the soil, industry, and art of the respective States or of their possessions, and which may be legally imported from the ports of the United Kingdom, and of all the possessions of Her Britannick Majesty, into the ports of His Majesty the Emperor of all the Russias, in British vessels, shall be subject to the same duties only which would be payable upon the same articles, if they were imported in Russian vessels.

Her Britannick Majesty grants by this Treaty to Russian navigation and trade, all the benefits and privileges of navigation and commerce now enjoyed, or which may hereafter be enjoyed, by the most favoured nations, under existing laws and Acts of Parliament, or in virtue of Orders in Council, or Treaties.

#### ARTICLE VI.

All merchandize and articles of commerce which, according to the stipulations of the present Treaty, or according to the laws and ordinances in force in the respective Countries, may be legally imported into or exported from the dominions and possessions of the two High Contracting Parties, either under the British flag, or under the Russian flag, shall, in like manner, be subject to the same duties, whether imported in vessels of the other State, or in national vessels: and the same bounties, drawbacks, and advantages shall be granted upon all merchandize and articles of commerce which may be legally exported from the ports of either State, whether exported in vessels of the one or in vessels of the other State.

#### ARTICLE VII.

All merchandize and articles of commerce which shall be imported into, deposited or warehoused in, the ports of the dominions and possessions of the High Contracting Parties, shall be subject, while so warehoused, to the same regulations, conditions, and duties, whether imported in British or in Russian vessels. In the same manner, the re-exportation of such merchandize or articles of commerce shall be treated in the same manner, and be liable to the payment of the same duties, whether exported in British or in Russian vessels.

#### ARTICLE VIII.

No priority or preference shall be given, directly or indirectly, by either of the two Governments, or by any Company, Corporation, or Agent acting in its name or under its authority, in the purchase of any production of the soil, industry, or art of either of the two States and their possessions, imported into the ports of the other, on account of the nationality of the vessel in which such article may have been imported; it being the fixed intention of the two Contracting Parties, that no difference

légalement être importées des ports de Sa Majesté l'Empereur de toutes les Russies, ainsi que de ceux des fleuves et rivières dont il est fait mention à l'Article III., dans les ports du Royaume Uni de la Grande Bretagne et d'Irlande, et de toutes les possessions de Sa Majesté Britannique, sur des vaisseaux Russes, ne seront soumis qu'aux mêmes droits que payeraient ces mêmes objets, s'ils étaient importés sur des vaisseaux Anglais.

De même, tous les objets qui ne sont pas des productions du sol, de l'industrie, et de l'art des Etats respectifs ou de leurs possessions, et qui peuvent légalement être importés des ports du Royaume Uni et de toutes les possessions de Sa Majesté Britannique dans les ports de Sa Majesté l'Empereur de toutes les Russies, sur des vaisseaux Anglais, ne seront soumis qu'aux mêmes droits que payeraient ces mêmes objets, s'ils étaient importés sur des vaisseaux Russes.

Sa Majesté Britannique accorde par le présent Traité à la navigation et au commerce Russes, tous les bénéfices et privilèges de navigation et de commerce dont jouissent actuellement, ou dont pourraient jouir par la suite, soit par les lois existantes et Actes du Parlement, soit en vertu d'Ordres du Conseil, ou par Traités, les nations les plus favorisées.

#### ARTICLE VI.

Toutes les marchandises et objets de commerce qui, d'après les stipulations convenues par le présent Traité, ou d'après les réglemens et ordonnances en vigueur dans les Pays respectifs, peuvent être légalement importés dans les Etats et les possessions des Hautes Parties Contractantes, ou exportés de ces mêmes Etats ou possessions, soit sous pavillon Anglais, soit sous pavillon Russe, seront également assujettis aux mêmes droits, qu'ils soient importés par les navires de l'autre Etat, ou par les bâtimens nationaux; et il sera accordé pour toutes les marchandises et objets de commerce dont la sortie des ports des deux Etats est permise, les mêmes primes, remboursemens de droits, et avantages, que l'exportation s'en fasse par les navires de l'un ou par ceux de l'autre Etat.

#### ARTICLE VII.

Toutes les marchandises et objets de commerce qui seront importés, déposés, ou emmagasinés dans les ports des Etats et possessions des Hautes Parties Contractantes, seront soumis, pendant la durée de l'emmagasinage, aux mêmes réglemens, conditions, et droits, qu'ils aient été importés sur des navires Anglais ou sur des navires Russes. De la même manière, la réexportation de ces marchandises ou objets de commerce sera soumise au même traitement et aux mêmes droits, qu'ils soient exportés sur des navires Anglais ou sur des navires Russes.

#### ARTICLE VIII.

Il ne sera donné, ni directement ni indirectement, ni par l'un des deux Gouvernemens, ni par aucune Compagnie, Corporation, ou Agent agissant en son nom ou sous son autorité, aucune préférence quelconque pour l'achat d'aucune production du sol, de l'industrie, ou de l'art de l'un des deux Etats et de ses possessions, importée dans les ports de l'autre, à cause de la nationalité du navire qui aurait transporté cette production; l'intention, bien positive des deux Parties Contractantes étant, qu'aucune

or distinction whatever shall be made in this respect.

#### ARTICLE IX.

In regard to the commerce to be carried on in Russian vessels with the British possessions in the East Indies, Her Britannick Majesty consents to grant to the subjects of His Majesty the Emperor of all the Russias, the same advantages and privileges as are or may be enjoyed, under any Treaty or Act of Parliament, by the subjects or citizens of the most favoured nation; subject to the laws, rules, regulations, and restrictions which are or may become applicable to the vessels and subjects of any other State enjoying the same advantages and privileges for trading with the said possessions.

#### ARTICLE X.

The stipulations of the present Treaty shall not apply to the coasting trade carried on between port and port in the dominions of either Contracting Party, by the sailing or steam vessels of the other, — far as regards the carrying of passengers, merchandize, or articles of commerce; this trade being reserved exclusively to national vessels.

#### ARTICLE XI.

The vessels and subjects of the High Contracting Parties shall, by the present Treaty, reciprocally enjoy all such advantages, immunities, and privileges, in the ports of their respective dominions and possessions, as are now enjoyed by the Navigation and Commerce of the most favoured nations; the intention being to secure, in the United Kingdom and in the British possessions, to Russian vessels and subjects, the full and entire advantages of Navigation and Commerce granted by existing laws and Acts of Parliament, Orders in Council, or Treaties, to other Powers, or which may hereafter be granted; and, in like manner, British vessels and subjects shall enjoy, in the ports of the dominions and possessions of His Majesty the Emperor of all the Russias, the full and entire advantages of Navigation and Commerce granted by existing laws, regulations, and ordinances, or by Treaties, to Foreign Powers, or which may hereafter be granted. And their Majesties the Queen of the United Kingdom of Great Britain and Ireland, and the Emperor of all the Russias, engage reciprocally not to grant any favours, privileges, or immunities whatsoever, in matters of Commerce and Navigation, to the subjects or citizens of any other State, which shall not be also at the same time granted to the subjects of the other High Contracting Party, gratuitously, if the concession in favour of the other State shall have been gratuitous, or upon giving as nearly as possible the same compensation or equivalent, in case the concession shall have been conditional.

#### ARTICLE XII.

It is understood that, in regard to commerce and navigation in the Russian possessions on the North-West coast of America, the Convention concluded at St. Petersburg, on the 11th February, 1825, continues in force.

différence ou distinction quelconque n'ait lieu à cet égard.

#### ARTICLE IX.

Quant au commerce à faire par les vaisseaux Russes avec les possessions Anglaises dans les Indes Orientales, Sa Majesté Britannique consent à accorder au sujets de Sa Majesté l'Empereur de toutes les Russies, les mêmes avantages et privilèges dont jouissent ou pourront jouir, en conséquence de tout Traité ou Acte quelconque du Parlement, les sujets ou citoyens de la nation la plus favorisée; soumis aux lois, règles, réglemens, et restrictions qui sont ou peuvent devenir applicables aux vaisseaux et aux sujets de tout autre Etat jouissant des mêmes avantages et privilèges pour faire le commerce avec les dites possessions.

#### ARTICLE X.

Les stipulations du présent Traité ne s'appliqueront point au commerce de cabotage entre les ports indigènes d'une des Parties Contractantes, par les bâtimens à voile ou à vapeur de l'autre, pour ce qui regarde la prise à bord de personnes, de marchandises, ou d'objets de commerce; ce genre de transport étant réservé exclusivement aux bâtimens nationaux.

#### ARTICLE XI.

Les vaisseaux et sujets des Hautes Parties Contractantes jouiront par le présent Traité, réciproquement, de tous les avantages, immunités, et privilèges, dans les ports de leurs Etats respectifs et leurs possessions, dont jouissent présentement la Navigation et le Commerce des nations les plus favorisées; l'objet en étant d'assurer, dans le Royaume Uni et les possessions Britanniques, aux vaisseaux et sujets Russes, les avantages pleins et entiers de Navigation et de Commerce accordés par les lois existantes et Actes du Parlement, Ordres du Conseil, ou par Traités, à d'autres Puissances, ou qui pourraient être accordés à l'avenir; et de même, les vaisseaux et sujets Britanniques jouiront, dans les ports des Etats et possessions de Sa Majesté l'Empereur de toutes les Russies, des avantages pleins et entiers de Navigation et de Commerce accordés par les lois existantes, réglemens, ordonnances, ou par Traités, à des Puissances Etrangères, ou qui pourraient être accordés à l'avenir. Et Leurs Majestés la Reine du Royaume Uni de la Grande Bretagne et d'Irlande, et l'Empereur de toutes les Russies, s'engagent réciproquement à n'accorder aucunes favours, privilèges, ou immunités quelconques, en matière de Commerce et de Navigation, aux sujets ou citoyens d'aucun autre Etat, qui ne soient en même tems accordés aux sujets de l'autre des Hautes Parties Contractantes, gratuitement, si la concession en faveur de l'autre Etat a été gratuite, ou en donnant, en autant qu'il sera possible de le faire, la même compensation ou le même équivalent, dans le cas où la concession aura été conditionnelle.

#### ARTICLE XII.

Il est entendu que pour ce qui concerne le commerce et la navigation dans les possessions Russes sur la côte Nord-Ouest de l'Amérique, la Convention conclue à St. Pétersbourg, le 11 Février, 1825, est maintenue en vigueur.

## ARTICLE XIII.

Any British or Russian vessel which may be compelled by stress of weather or by accident to take shelter in the ports of either of the High Contracting Parties shall be at liberty to refit therein, to procure all necessary stores, and to put to sea again, without paying any other than port and light-dues there, which shall be the same as those payable by national vessels. In case, however, the master of such vessel should be under the necessity of disposing of a part of his merchandize in order to defray his expenses, he shall be bound to conform to the regulations and tariffs of the place to which he may have come.

In the event of a vessel being wrecked at a place belonging to either of the High Contracting Parties, there shall not only be afforded to the persons shipwrecked every kind of assistance, but, moreover, the merchandize and effects which they may have thrown overboard, or which may have been saved, shall not be seized or detained under any pretext whatsoever. The said effects and merchandize shall, on the contrary, be preserved and restored on payment of the same rate of salvage, and of customs or other duties, which would have been payable in the like case of a wreck of a national vessel. In the case either of shipwreck, or of a vessel being driven into port by stress of weather, the respective Consuls, Vice-Consuls, or Commercial Agents, shall be authorized to interpose in order to afford the necessary assistance to their fellow-countrymen.

## ARTICLE XIV.

The Consuls, Vice-Consuls, or Commercial Agents of each of the two High Contracting Parties residing in the dominions of the other, shall receive from the local authorities such assistance as can by law be given to them, for the recovery of deserters from ships of war or merchant vessels of their respective countries.

## ARTICLE XV.

The present Treaty shall remain in force during the space of ten years dating from the exchange of the ratifications thereof; and further, until the expiration of twelve months after either of the High Contracting Parties shall have given notice to the other of its intention to put an end thereto; each of the High Contracting Parties reserving to itself the right of giving such notice to the other at the expiration of the first nine years: and it is agreed between them, that at the expiration of twelve months after such notice shall have been received by either of the High Contracting Parties from the other, the present Treaty, and all the stipulations contained therein, shall cease to be binding on the two Parties.

## ARTICLE XVI.

The present Treaty shall be ratified, and the Ratifications thereof exchanged at London, at the expiration of one month, or sooner if possible.

In witness whereof the respective Plenipotentiaries have signed the same, and have fixed there-to the seals of their arms.

(L.S.) CANCRINE.

## ARTICLE XIII.

Tout vaisseau Britannique ou Russe, qui sera forcé par des tempêtes ou par quelque accident de se réfugier dans les ports de l'une ou l'autre des Hautes Parties Contractantes, aura la liberté de s'y radoubier, de s'y pourvoir de tous les objets qui lui seront nécessaires, et de se remettre en mer, sans payer d'autres droits que ceux de port et de fanaux, lesquels seront pour lui les mêmes que pour les batimens nationaux. Si, cependant, le patron d'un tel navire se trouvait dans la nécessité de se défaire d'une partie de ses marchandises pour subvenir à ses dépenses, il sera tenu de se conformer aux ordonnances et aux tarifs de l'endroit où il aura abordé.

En cas de naufrage arrivé dans un endroit appartenant à l'une ou à l'autre des Hautes Parties Contractantes, non seulement il sera donné toute sorte d'assistance aux naufragés, mais encore les marchandises et effets qu'ils auraient jetés à la mer, ou qui auraient été sauvés, ne seront point saisis ou retenus sous quelque prétexte que ce soit. Les dits effets et marchandises seront au contraire conservés et rendus, moyennant l'acquiescement du même taux de sauvetage, ainsi que des mêmes droits de douane ou autres, que payerait en pareil cas un bâtiment national. Dans l'un et l'autre cas de relâche forcée ou de naufrage, les Consuls, Vice-Consuls, ou Agens Commerciaux respectifs, seront autorisés à intervenir pour prêter l'assistance nécessaire à leurs nationaux.

## ARTICLE XIV.

Les Consuls, Vice-Consuls, ou Agens Commerciaux de chacune des deux Hautes Parties Contractantes résidant dans les États de l'autre, recevront des autorités locales, toute l'assistance qui pourra légalement leur être accordée, pour la restitution des déserteurs des navires de guerre ou marchands de leurs pays respectifs.

## ARTICLE XV.

Le présent Traité restera en vigueur pendant l'espace de dix ans à dater de l'échange des ratifications, et au-delà de ce terme, jusqu'à l'expiration de douze mois après que l'une des Hautes Parties Contractantes aura donné avis à l'autre de son intention d'en faire cesser l'effet, chacune des Hautes Parties Contractantes se réservant le droit de donner un pareil avis à l'autre à l'expiration des premières neuf années: et il est convenu entre elles, qu'à l'échéance de douze mois après que pareil avis de l'une des Hautes Parties Contractantes aura été reçu par l'autre, le présent Traité, et toutes les stipulations qu'il renferme, cesseront d'être obligatoires pour les deux Parties.

## ARTICLE XVI.

Le présent Traité sera ratifié, et les Ratifications en seront échangées à Londres, à l'expiration d'un mois, ou plus tôt si faire se peut.

En foi de quoi les Plenipotentiaires respectifs l'ont signé, et y ont apposé les sceaux de leurs armes.

Fait à St. Pétersbourg, le <sup>onze</sup> ~~trois~~ <sup>Janvier</sup> ~~Décembre~~ de l'année mil-huit-cent-quarante <sup>trois</sup> ~~deux~~.

SEPARATE ARTICLE I.

The commercial intercourse of Russia with the Kingdoms of Sweden and Norway being regulated by special stipulations, which may hereafter be renewed, and which do not form part of the regulations applicable to foreign Commerce in general, the two High Contracting Parties, being desirous of removing from their commercial relations every kind of doubt or cause for discussion, have agreed that those special stipulations granted in favour of the commerce of Sweden and Norway, in consideration of equivalent advantages granted in those countries to the Commerce of the Grand Duchy of Finland, shall in no case apply to the relations of Commerce and Navigation established between the two High Contracting Parties by the present Treaty.

SEPARATE ARTICLE II.

2. The exemptions of the like nature granted in the Russian ports of the Black Sea, the Sea of Azoff, and the Danube, to such Turkish vessels arriving from ports of the Ottoman Empire, situated on the Black Sea, as do not exceed eighty lasts burthen;

The permission granted to the inhabitants of the coast of the Government of Archangel, to import duty free, or on payment of moderate duties, into the ports of the said Government, dried or salted fish, as likewise certain kinds of furs, and to export therefrom, in the same manner, corn, rope and cordage, pitch, and raven-duck;

4. The privilege of the Russian American Company;

5. The privilege of the Steam Navigation Companies of Lubek and Havre; lastly,

6. The immunities granted in Russia to certain English Companies, called "Yacht Clubs."

The present Separate Articles shall have the same force and validity as if they were inserted, word for word, in the Treaty signed this day. They shall be ratified, and the ratifications thereof exchanged at the same time.

Les relations commerciales de la Russie avec les Royaumes de Suède et de Norvège, étant réglées par des stipulations spéciales, qui pourront être renouvelées dans la suite, sans que les dites stipulations soient liées aux réglemens existans pour le Commerce étranger en général, les deux Hautes Parties Contractantes, voulant écarter de leurs relations commerciales toute espèce d'équivoque ou de motif de discussion, sont tombées d'accord que ces stipulations spéciales accordées au commerce de la Suède et de la Norvège, en considération d'avantages équivalens accordés dans ces pays au Commerce du Grand Duché de Finlande, ne pourront dans aucun cas être invoquées en faveur des relations de Commerce et de Navigation sanctionnées entre les deux Hautes Parties Contractantes par le présent Traité.

ARTICLE SEPARÉ II.

Il est entendu de même, que ne seront point censés déroger au principe de réciprocité qui est la base du Traité de ce jour, les franchises, immunités, et privilèges mentionnés ci-après, savoir:—

1°. La franchise dont jouissent les vaisseaux construits en Russie, et appartenant à des sujets Russes, lesquels, pendant les premières trois années, sont exempts des droits de navigation;

3°. La faculté accordée aux habitans de la côte du Gouvernement d'Archangel, d'importer en franchise ou moyennant des droits modérés, dans les ports du dit Gouvernement, du poisson sec ou salé, ainsi que certaines espèces de fourrures, et d'en exporter de la même manière des blés, cordes et cordages, du goudron, et du ravendour;

4°. Le privilège de la Compagnie Russo Américaine;

5°. Celui des Compagnies de Lubek et du Havre pour la navigation à vapeur; enfin,

6°. Les immunités accordées en Russie à différentes Compagnies Anglaises, dites "Yacht Clubs."

En foi de quoi les Plénipotentiaires respectifs les ont signés, et y ont apposé les sceaux de leurs armes.

The additional Flashing Light established in 1838, near the above Fixed Light will then be discontinued.

The new Revolving Light will be visible 8 leagues, and will be distinguished from that of Calais by the difference of their respective intervals, that of Calais being 90 seconds, and that of Grinez only 30 seconds; and further, the bright glares of Calais Light are separated by perfect darkness, while in the intervals between those of Grinez a faint light will be visible to vessels within the distance of four leagues.

## NOTICE.

## DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of  $4^{\circ}$  to  $12^{\circ}$  of North Latitude, and  $106^{\circ}$  and  $119^{\circ}$  of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmian" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information:

*List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.*

No.	English Translation of Spanish Names.	Danger.	Lat. No.	Long. E. from Greenwich	REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water,	$10^{\circ} 58' 40''$	$110^{\circ} 34' 10''$	<p>Those who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Ardaseer's, Andrada, Middleburgh's and Cassard's Reefs, &amp;c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was first intended to add this list brief remarks upon each of them.</p> <p>But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what data they had been introduced on the Spanish Chart together with those which are evidently from their dates, new discoveries, as the Thomas and Brown's dangers of 1838: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the covering a Chart with Reefs and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them.</p> <p>And it may not perhaps be out of place here to add, for it throws much light on this question, that recent geological researches (we allude especially to Mr. Charles Darwin's beautiful work on Coral Reefs) render it certain that Coral reefs and low Islands are not only the tops of mountains rising from the depths of the ocean, upon which the Polypi then build, but that they are subject to alternate sinkings and risings within shorter or longer periods of time; so that Islands, Reefs or Banks may appear or disappear or re-appear</p>

Rock, .....	8° 47' 30"	111° 10' 0"	In a night, and this even over large spaces Mr. Dalwin believes the China Sea to be an area of depression, viz. a space in which at some former period a great sinking of the crust of the earth took place, while the Philippines, and perhaps Borneo, were raised from the Ocean. As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be yet elevated or sunk from time to time by this cause. The Island of Cheduba, in the Bay of Bengal, has had a large pier added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants. See Captain Halsted's Report, in Journal of the Asiatic Society, Vol X p 484. It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be entangled in this dangerous quarter of the China Sea, or to explain why we have preferred marking again many old dangers now expunged from our modern Charts, since they have once disappeared, which we do not know, there is always some possibility of their re-appearance—which we certainly do know
